Amendments to the Specification:

Please amend the title at page 1, line 1 of the specification as follows:

Pharmaceutical Compositions comprising an Epitope of Platelet GPIIIA Protein and Methods for Administration Thereof

Please replace the Abstract of the instant specification with the following:

ABSTRACT

The present invention relates to a pharmaceutical composition for the prevention or management of a condition caused by exposure to an antithetical allele of a platelet by tolerisation, the composition comprising an immunologically effective platelet protein or peptide fragment thereof. Methods for administration of these compounds are also provided.
